PROGRAM SCOPE - Services to be provided under the Program are limited to those directly associated with the evaluation and installation of Measures and shall in no way include work by the Contractor in connection with the correction of apparent or hidden safety issues or code violations. Contractor shall not perform work where, in its sole discretion, it is determined such safety issues or code violations exist. PROJECT - The Measure(s) to be installed in the facility listed under the Facility Information section of the application.

SCOPE OF WORK ATTACHMENT - A document generated by the Energy Assessment tool which lists the Measures eligible for installation, their Incentive Amounts and costs to be paid by the Customer. PARTICIPATION PROCESS:

1. Customer completes Application and provides necessary utility usage and demand data.
2. Contractor or Program Manager performs the Energy Assessment using the program-approved energy assessment tool. The Energy Assessment generates a Scope of Work Attachment for countersignature by the Customer to indicate which eligible Measures are to be included in the Project.
3. Contractor countersigns the Scope of Work Attachment and submits a full Application Package to the Program Manager for approval.
4. Upon Program Manager's approval, Contractor performs retrofit work to remove existing equipment and install Measures, and submits documentation of Project completion in the form of a Measure Acceptance Form signed by the Customer. Contractor invoices the Program Manager for the Incentive portion and the Customer for the balance.
5. Customer pays outstanding balance of costs, less any prior payment or deposit, to Contractor according to amounts listed on the Scope of Work Attachment.

The Scope of Work Attachment shall be countersigned by the Customer to indicate eligible and qualifying Measures to be included in the Project.
